

Vertiv™ Avocent® HMX High-Performance KVM with MultiViewer

A Vertiv Application Brief

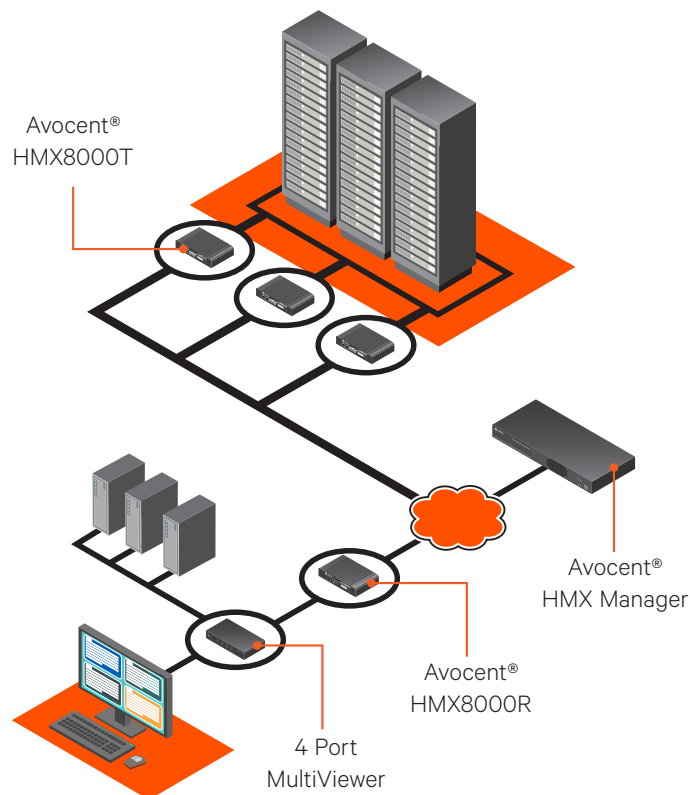

A Different Way to Look at Video

Things happen fast in the control room. Whether you're directing live broadcasts or editing in post-production, the volume of video and data streams to be managed can be overwhelming.

The Vertiv™ Avocent® HMX High-Performance KVM with MultiViewer makes it easy. It simplifies and streamlines video file management, enabling secure access and single-monitor visibility across multiple sources.

- Single-monitor visibility and control
- Up to 4K video capabilities
- Secure connections to multiple computers or domains
- Continuous login
- Seamless switching between sources
- Reduced desktop hardware
- Multiple configurations

The Avocent HMX High-Performance KVM with MultiViewer enables high-definition video broadcasts and editing with seamless transitions from file to file, across computers or servers.

Fast. Easy. Elegant.

Say goodbye to cluttered desktops and control rooms. Manage all your video and data streams from a single workstation, using a single keyboard, a single mouse, and seeing it all on a single monitor.

Every frame matters, so you have to make every second count. The Avocent HMX High-Performance KVM with MultiViewer eliminates wasted time and effort, so you can focus on your work rather than your workstation.

Compatible Across Models

Avocent® 5000/6000/8000

Avocent® direct connect Matrix
